SYMPOSIUM:
Expanding Financial Opportunity: Catapulting Communities Forward

Whatever it is... you can in Portland.” That’s the tourism bureau slogan for the city of Portland, Oregon. What an appropriate sentiment for us to adopt as we head to “The City of Roses.” As our NeighborWorks Training Institutes (NTIs)s move from city to city, we are often reminded about the great work and sense of community found across the country. Portland is no exception and knowing that it is recognized for “being a friendly town where people are nice to strangers” should make us all feel at home and make it easy for us to get to work addressing today’s community development challenges. Opportunities abound and are seemingly limitless in Portland; and like this wonderful city, our NTIs are increasing opportunities for individuals and families.

When I look back over this year and the content for each of our NTIs/NTI symposiums, I’m quite proud of the content we put forth – exploring the theme(s) of reducing the opportunity gap and not limiting one’s opportunities. We started 2019 in Cleveland focused on “Removing Barriers to Sustainable Housing Affordability”. Then it was on to New Orleans, where we zeroed in on the health and well-being of diverse communities and what we could do to reduce the life expectancy gap. We will round out the year in Portland where we will deep-dive into financial capability, exploring the many contributing factors and best practices in this area.

Situated in the Pacific Northwest, it’s been said that even the “Type A” personality is a bit more relaxed in Portland. I don’t know if it’s the fresh air or the food. But what I do know is that the activities and culture of the city lend themselves to intersections and connections in and out of the classroom. Martin Luther King, Jr. said it best: “We are all caught in an inescapable network of mutuality, tied into a single garment of destiny.” I encourage each of you who plan to join us in Portland to grab a colleague or a new friend/classmate and find your mutuality. Portland is the place for great excursions, an abundance of art and one-of-a-kind food experiences (not just Voodoo Donuts), but if you go, be sure and enjoy one for me! I look forward to seeing you in Portland.

*SV This course includes a site visit to a local community which may include walking and the use of public or private transport. Please identify any special needs (in accordance with American with Disability Act (ADA) when you register for this course.*
It is a long held American belief that financial opportunity exists for all who work hard enough. Yet, as we can see from the widening wealth gap – especially the wealth gap seen in communities of color – financial opportunity is not always simply a matter of individual effort. These efforts must be rooted in communities and systems that provide economic opportunity and access to all residents. For individuals to be able to make meaningful financial change in their lives they need to have access to the tools, resources and opportunities necessary for financial mobility.

So what does financial opportunity look like? What roles do community development and affordable housing practitioners play in creating opportunities for financial mobility? What strategies are working in communities across the country?

With so many Americans still struggling to make ends meet, individual supports like financial coaching and counseling are still vital in helping people seize opportunities and build financial health. How do we engage and empower people to build financial resilience and achieve financial goals? How do we engage diverse populations in a way that addresses their unique needs and speaks to their strengths? Hear about efforts happening across the country to empower people and inspire change.
**Important questions we’ll examine throughout the day:**

- What does it mean for an individual to have financial opportunity?
- What strategies are being used in communities across the country to remove barriers to wealth building and help people get ahead?
- What is the unique role of housing affordability in creating financial opportunity for individuals and communities?
- How do we engage key target populations in a way that addresses their unique needs and speaks to their strengths?

**Who is this event for?**

- Professionals working across multiple sectors – community development, affordable housing, government, social services, financial services and philanthropy
- Professionals for all types of communities – urban, suburban and rural
- People working at all levels to support financial opportunity access – front line staff working directly with individuals, management and leadership overseeing financial capability services, and grant makers supporting these efforts

**What will you walk away with?**

- Promising practices aimed at removing barriers to wealth building in communities
- Insight into innovative cross-sectoral approaches to building financial health
- Tools and approaches to reducing the racial wealth gap through thoughtful engagement with communities of color

AFFORDABLE HOUSING

AH183 Supportive Housing: Developing Solutions and Supporting Residents
This course, designed by the Corporation for Supportive Housing, concentrates on funding specific to the development of supportive housing and reviews different models of providing supports to residents. It will look at increasing housing opportunities for the homeless, persons with chronic mental illness, and homeless Veterans as well as other special needs populations.

AH218 If It Can Go Wrong: Resolving Predictable Crises in Real Estate Development
The Housing Development process can run into problems at almost any opportunity. This course will show you where many issues occur and how to resolve anything that comes up during development. Not all real estate development crises are predictable, but there are many instances where we should have seen it coming. These predictable surprises can happen in each phase of the development process and range from zoning and land uses issues, to subsidy program requirements, construction costs and partner agreements. This course will provide a review of the psychological, organizational and political barriers that prevent nonprofit organization’s from identifying and addressing these predictable surprises. Through lecture, case studies and exercises you will learn how to recognize common threats to a development’s successful completion, make them a priority and mobilize the resources required to stop it.

AH256 Shared Equity Housing: Creative Models to Preserve Affordable Homeownership
Shared-equity homeownership is a creative tool for creating vibrant, inclusive and equitable communities. Community land trusts, shared-equity cooperatives and deed-restricted houses homes are models where the rights, responsibilities, risks, and rewards of homeownership are shared between the individuals who own and occupy this housing and an organizational entity that stands behind the home long after it is sold. These models ensure that homes remain affordable to persons of modest means on a long-term basis by restricting the amount of equity that homeowners may remove from their homes on resale. In this introductory course, participants will review the most common models of shared equity homeownership, weighing the pros and cons of each model as a vehicle for promoting individual and community security, prosperity, and mobility.
ASSET MANAGEMENT

AM121 Nuts and Bolts of Asset Management (CHAM)
The Nuts and Bolts of Asset Management is a hands-on workshop that covers key asset management concepts and theories through practical real world case studies and exercises. The workshop includes exercises focusing on evaluating property performance against double-bottom line performance standards. Exercises include review and analysis of revenues, expenses, financial reports and audits, effective planning, tracking and reporting and an introduction to Low Income Housing Tax Credits and the connection between decisions at the development stage and the long term viability of the property. Class culminates with a property “workout” case study.

AM351 Advanced Housing Asset Management (CHAM)
Advanced Housing Asset Management (AHAM) is the final course in the Certified Housing Asset Manager (CHAM) series. It is designed for participants who have completed or tested out of all of the other courses in the series (see the CHAM designation curriculum for details). This class will bring together all of the aspects of asset management covered through the CHAM curriculum. This course will take place over a period of approximately 30 days in a combination of traditional classroom and online learning settings. At its conclusion, students will be prepared to submit their CHAM project for review, the final stage in securing the CHAM designation. Part I of this course will be three consecutive days held in a classroom. Students will explore techniques for analyzing and managing portfolios of properties through exercises involving both case studies and analysis of their own organizations’ portfolios. Students will need to bring a laptop and prepare materials in advance; more information will be sent a few weeks prior to the start of Part I. In Part II of this course, students will prepare an asset management plan for one of their properties, analyzed and presented in the context of their property portfolio. This part of the course will use remote learning strategies where participants will 1. have the opportunity to schedule one-on-one coaching from the instructors on their property asset management plan, and 2. present a Powerpoint summary of their property asset management plan via video-conferencing to a group of fellow participants for peer feedback and insights. Part II will conclude within 30 days of the commencement of Part I.

“Instructor did an absolute awesome job-very informative and helpful, very energetic and engaging.”

COMMUNITY ENGAGEMENT

CB116SV Working With Faith-Based Institutions in Community Development
Find out about the role of religious organizations in community economic development, how faith groups mobilize and deliver, and how they and development organizations can become partners. Learn how religious goals and community revitalization methods complement and challenge each other. Look at proven best practices and recent innovations. Recommended for community development practitioners and anyone interested in faith-based community development. This course includes a field visit. Wear comfortable walking shoes and bring money for lunch.

CB270 Training Techniques: Designing and Facilitating Successful Training
Are you ready to design community learning events that are effective and successful? Come learn about the fundamental steps of training design and facilitation that create a path to learning and audience participation. Learn about the basic theories behind a participatory learning approach. Implement the eight step planning model and walk away with a written plan on how to build or redesign one of your community learning events. Understand the various learning styles and practice methods such as small groups, role plays, learning exercises, icebreakers, and other participatory techniques. Examine successful learning environments and discuss other training and facilitation best practices. Learn about ways to evaluate the success of learning events at different stages so they are successful and sustainable.

COMMUNITY ECONOMIC DEVELOPMENT

ED210 Positioning Programs for Success: Connecting Program Design to Community Economic Impact
Do you feel challenged to clearly and graphically convey what your programs are all about to your board, staff and funders? Can you demonstrate the connection between your organization’s investments and its long-term economic impact in the community? This course uses the Logic Model framework to help you plan with the end in mind. You’ll improve your ability to design, market, monitor and evaluate your organization’s programs using long-term, measurable outcomes. This versatile and essential tool for designing community development programs will help you to identify needed resources, actions, achievable outcomes and community impact. In this interactive course you will study the difference between inputs, activities, outputs, outcomes and impact, and practice your hand at designing Logic Models through interactive class exercises.

ED215 So You Think You Want to Start a Social Enterprise?
Social enterprises are a new approach to meeting our most pressing social needs, combining the best attributes of the marketplace with the passionate commitment of the social sector. Social enterprises are mission-driven businesses that simultaneously generate earned revenue and social impact. REDF is a leader in providing funding and technical assistance to social enterprises that focus on hiring and assisting people who face barriers to work. As such, this course will also focus on this type of social enterprise.
This course is designed to give participants an understanding of social enterprise and the role it can play in addressing today’s economic challenges. Through case studies, exercises, and group work, participants will learn what it takes to start and run a social enterprise. Over the course of 2 days, participants will use REDF’s business development frameworks and lay the groundwork for developing their own social enterprise. In this interactive workshop, participants will develop an idea for a social enterprise, test the viability of their concept’s financial performance and social impact potential, as well as plan for real-world implementation of their idea.

ED255 Developing a Creative Economy Strategy in Your Community
What role do the arts and culture have in your community’s economic development plan? Find out why the creative economy is one of the fastest growing sectors of economic development. Learn techniques to analyze your community’s capacity for developing its creative economy as well techniques to develop innovative programming. Learn how to create and evaluate different creative economy strategies for maximum impact that will support the revitalization of your community. This is an interactive course that includes case studies, lecture, dynamic group exercises and interactive class discussions and a brief site visit.

COMMUNITY AND NEIGHBORHOOD REVITALIZATION

NR124SV Reading a Neighborhood: What a Walk Around the Block Can Tell You
Learn how to quickly analyze what’s going on in a neighborhood during a block walk. What can the housing stock and businesses tell you? The people on the street and the streetscape itself? Hone your observation skills and take home a system to analyze what you see and how your assumptions can color your observations. This course includes a site visit where participants take part in a block walk, perform an analysis and discuss their findings in terms of neighborhood revitalization. Participants will come away with a practical how-to guide for conducting a block walk in their own communities. The neighborhood tour requires fairly extensive walking. Wear comfortable shoes and dress appropriately for the weather. We often have lunch during the neighborhood tour, bring cash.

NR190 Leveraging Arts and Culture for Affordable Housing and Equitable Community Development
How can partnerships with artists and culture bearers help build and preserve affordable housing in innovative, authentic, and equitable ways? Join researchers and facilitators from ArtPlace America to explore and contribute to an emerging body of research and practice regarding the role of arts and culture in building affordable housing and equitable, sustainable, and healthy communities. Artistic practice can often be seen as too abstract to include in housing projects - or only valuable for aesthetic improvement - but this course will demonstrate that cultural work can be a critical tool needed to raise awareness regarding housing challenges, bring neighbors together, and organize successful housing policy wins in a community. Through case study exploration and workshop, participants will learn how to partner with artists and culture bearers, conceptualize creative projects, incorporate culturally relevant design elements into their projects, and workshop other tangible skills related to collaborative practice. Featured case studies will illustrate how arts and cultural strategies can help to build better and more culturally responsive affordable housing, enact anti-displacement strategies in weak and strong market neighborhoods, develop regenerative practices for geographies lacking basic infrastructure, and more.
CONSTRUCTION AND REHAB

CP255 – How to Conduct a Rehab Home Inspection
Whether owner occupied or acquisition rehab, this advanced level course will equip housing rehabilitation, construction and development program staff with the skills needed to conduct a thorough, effective and efficient inspection of a home. This course focuses on the process of inspections for the sake of determining feasibility and creating a scope of work for contractors. You will learn the skills to properly conduct an inspection, including inspection challenges, the inspection process and routine, inspection forms, necessary inspection tools and how you should look, act and interact with the public. You will learn what items and systems you should be investigating and how to do a visual, non-invasive home inspection. In addition, the course will feature an interactive inspection process to help develop your skills. Attend this course and walk away with the essential skills and knowledge to conduct one of the most critical skills needed by any rehab/construction specialist. This is the first of two courses in the Housing Inspections one week certification. The second course is CP189 – Automate Rehab with Housing Developer Pro® 3.5.

CP189 – Automate Rehab with Housing Developer Pro® 3.5
Housing Developer Pro® (HDP) focuses on housing rehabilitation and project management for single-family and multifamily properties. Discover how this software program will assist the rehab specialist and construction manager by automating property inspections, the creation of specifications/scope of work and cost estimates, scheduling, the creation of draw schedules, and other important tasks. This two-day course covers all of the enhancements included in HDP of 3.0 and also includes content for performing field inspections. Basic familiarity with Windows required. This is the second of two courses in the Housing Inspections one week certification.

**Building Skills for Financial Confidence (H0208)**
Are you wondering what skills are necessary for practitioners to effectively work with customers in reaching their financial goals? What behaviors and attitudes can make a person financially confident? Attend this 2-day course to gain the most useful and efficient tools to make a real difference in the lives of your clients. Develop and build your skills in key content areas that will help consumers put themselves in a better position to withstand economic stresses and achieve financial prosperity.

**Delivering Effective Financial Education for Today’s Consumer (H0209rq)**
This course addresses the fundamental components to successfully delivering a well-designed financial education program, starting with group education and the primary ways consumers behave with their money: visioning; maximizing income; spending; saving; borrowing and protecting. Participants explore growing industry trends surrounding comprehensive “financial capability” programs, lifestyle changes, counseling, coaching and measuring outcomes. Innovative strategies using a variety of delivery methods, including social media, will be explored, along with available resources.

**Credit Counseling for Maximum Results (H0211)**
Equipped with knowledge and the right tools, you can increase your ability to help clients (in individual or group sessions) build, improve, and maintain a good credit profile. Using sample credit files, you will sharpen your skills in reading and interpreting credit reports, identify and understand the factors that impact credit scores and learn the consumer rights and protection laws specific to credit counseling.

**Effective Approaches to Student Loan Counseling (H0255)**
We’ve developed a course to train counseling professionals on how to help their clients plan for and meet the financial responsibility of this type of debt and to provide guidance to clients facing default—or in default—on their student loans. Obtain the knowledge you need to effectively explain repayment options and their terms. This course is a great opportunity for your organization to engage a new target audience and provides the tools you need to integrate these services into your existing counseling program.

**Financial Coaching: Helping Clients Reach Their Goals (H0310)**
Learn how coaching differs from and complements counseling, financial education and other services aimed at building consumers’ financial security while you explore ways to incorporate coaching techniques into your financial capability program.

**Financial Coaching Advanced Practicum: Taking Your Practice to the Next Level (H0370rq)**
In this follow-up course to Financial Coaching: Helping Clients Reach Their Goals (H0310), you will have many opportunities to put into practice the approaches and techniques you’ve culminated over time. As you start to hone your understanding of the models used in financial coaching and deepen your understanding of how to effectively help clients with cash flow, savings, reducing debt, rebuilding credit and protecting their assets. We will also explore coaching strategies that allow you to be of help to clients with complex personal situations.

**Financial Capability Program Design for Managers (H0375)**
Program managers and executive directors, register now for our new course. Learn how to successfully execute financial capability program strategies for your unique target audience and lay the groundwork for everything from enrollment to measuring outcomes.

**NCHEC TRAINING SCHOLARSHIPS**
A number of scholarships are available for Financial Capability, Housing Education and Counseling courses at this training institute and at other training events around the country. Most scholarships provide free tuition and lodging for eligible staff of 501(c)(3) organizations. To find out about these and other scholarship opportunities, go to NeighborWorks.org/scholarships.

This intermediate course results from NTI participant requests, so bring your current or upcoming project and get ready to explore tools that will help you successfully initiate, plan, execute, and monitor it! INTERMEDIATE COURSE

ML267 From Charity to Change: Empowering Your Community through Advocacy

This advanced session will build your knowledge, skills and confidence to effectively engage in advocacy – at any level – in order to influence decision makers and change systems. Community development organizations are particularly well positioned for advocacy because of your first-hand experience with the issues, relationships with people on the ground and in the halls of power, and credibility in your community. Yet, few take full advantage of this opportunity. Over the two days together, we will debunk myths and clarify the legal rules on advocacy, demystify how to craft an advocacy strategy that works for your issue and organization and engages both staff and board, and get real about how to build a culture for advocacy across your organization. We’ll also explore the ways that strategic and effective advocacy can build capacity for your organization – by bringing attention to your issues, raising your public visibility, and positioning your organization as a resource and leader.

ML274 Exploring Excellence in Governance

As the nonprofit sector has matured and adapted in the last decade, there has been a growing interest in boards of directors moving from traditional, technical oversight to a more strategic - and even generative - model of governance. The technical board most often identifies the nonprofit’s current opportunities and challenges in terms of today’s data and circumstances. The strategic board sets direction and designs solutions, and the generative board seeks opportunities to re-imagine future possibilities and impact. This one-day course explores the shift from governance as compliance and monitoring to governance as strategic thinking and creative engagement. The course also examines the experiences of graduates of four rounds of NeighborWorks America’s Excellence in Governance (EIG) program. We will explore if and how EIG tools/concepts - including participation by leadership teams comprised of CEO and board members, development of a board governance challenge, and the use of leadership coaching and peer learning - changed the governance landscape. IDEAL PARTICIPANTS: Exploring Excellence in Governance is designed for nonprofit board leaders and members as well as nonprofit CEOs and executives who work closely and collaboratively with board members.
SINGLE-FAMILY AND SMALL BUSINESS LENDING

LE141 Fundamentals of Micro and Small Business Underwriting
This course is designed to give all lending practitioners a strong foundation in the underwriting of micro and small businesses, whether they have little or no experience or would like a refresher. Participants will learn and employ the analysis techniques of finance professionals—the five Cs of credit. Participants will analyze financial statements and other types of financial information using a variety of commonly used financial ratios and will discuss both the benefits and limitations of these methods. Participants will learn how to structure loans to mitigate different types of risks. This course will be highly interactive, allowing participants to relate their own lending experiences to the case studies and other examples that will be used in class. Emphasis will be placed on working in groups so participants can be exposed to the analysis techniques and lending philosophy of others in the private nonprofit sector.

LE241 Intermediate Underwriting for Micro and Small Business Lenders
This intermediate level course is designed for lending practitioners who have had some prior experience with lending to businesses or managing revolving loan funds. Participants will learn and employ the analysis techniques of finance professionals—the five Cs of credit. Participants will analyze financial statements and other types of financial information using a variety of commonly used financial ratios and will discuss both the benefits and limitations of these methods. Participants will learn how to structure loans to mitigate different types of risks. Minimum cost, maximum customization

Want to build a customized training event that conveniently and cost-effectively delivers NeighborWorks courses in your own community, for your own staff and partners? Explore the flexible, reasonably priced possibilities of our “place-based” regional/local training. We’ll work with you to develop a made-to-order training experience that delivers the same high-quality knowledge- and skill-building you enjoy at our national institutes. You’ll minimize your travel costs, maximize your training budget, and learn exactly what you need to learn together with your community partners.

Arranging your place-based event is easy. You can create a program by selecting one or more courses from our comprehensive catalog (NeighborWorks.org/coursecatalog). Fees are based on the specific courses and number of training days—significantly lower than comparable training market rates, and the cost of sending multiple learners to a Training Institute with often steep travel expenses. We can scale services up or back according to your unique needs: from simply sending a trainer and materials for a single course, to building a tailor-made event with multiple courses.

Gaining the knowledge, skills and tools you need for increased impact has never been so personalized—or stress-free!

FOR MORE INFORMATION GO TO NEIGHBORWORKS.ORG/PLACEBASEDTRAINING.
NeighborhoodWorks America’s online training offerings let you stay close to your work while gaining the same valuable skills and knowledge offered at our highly rated in-person training events. You can arrange your professional development around your busy schedule, and best of all, save your valuable travel dollars and time away from the office. Our courses help you cultivate skills and knowledge you can put into action right away, so you can start doing even better work for the communities you serve, sooner!

Offered in three formats, Online Training addresses the latest challenges and opportunities in a wide array of community development, affordable housing, and nonprofit management topics, always growing and evolving to meet your needs. We offer training for professionals at all levels—from entry level to expert—so you can be sure you’re getting a high-quality learning experience that keeps you at the forefront of your work.

INTERACTIVE WEBINARS
Our 90-minute interactive webinars are the most time-efficient and cost-effective training option for professionals looking to stay up-to-date on the latest best practices and pick up specific skills from our expert faculty.

SELF-GUIDED COURSES
Composed of individual pieces of content you can move through at your own pace, self-guided courses enable you to gain relevant skills and dig deeper into the specific content that makes the most sense for you—reinforced with downloadable tools and resources.

FACULTY-LED COURSES
Designed to present complex material that is best learned with the guidance of an expert and the support of your peers, faculty-led courses provide a comprehensive professional development experience comprising weekly live sessions and self-paced assignments, supported by online learning tools and collaboration. You’ll take a deep dive into critical topics, receive instruction and feedback specific to your challenges, and work with peers—all without leaving your home or office.

REGISTRATION AND ACCOMMODATION INFORMATION FOR NON-NEIGHBORWORKS ORGANIZATIONS, PORTLAND, OR

PRE-EVENT REGISTRATION
Submit the registration form by the early raffle deadline of October 21 or by no later than November 18. After this date, participants wishing to take courses at this event must wait to enroll during the onsite registration. To register for courses, locate the classes you wish to take and indicate your first and second choices for each day on the registration form. Use both course letters and numbers. Also, list the tuition for each first choice course only. Complete the registration form and mail or fax it to NeighborWorks America. Register early; classes fill up quickly, and we cannot guarantee onsite or late registrants the classes of their choice. We recommend you do not confirm your travel and accommodations until you receive confirmation of your enrollment in selected courses.

ONLINE REGISTRATION
Instead of mailing or faxing a registration form, consider signing up through our online registration system. Participants choosing to use the online system will be able to access their online transcript history, update profile information, streamline payment transactions and make course registration changes. Access the online registration tool at NeighborWorks.org/onlineReg. As a first time user to this online tool, you will need to create a user profile before registering.

ONSITE REGISTRATION
Onsite registration opens on December 8, 2019 at 3 p.m. Check daily hours of operation onsite. All participants must stop by the onsite registration to pick up their registration packets before attending courses. Your packet will have the most updated information about courses, locations and events.

PAYMENT POLICY
Institute courses and symposia are individually priced. Tuition fee include courses, materials and site visits (where applicable), afternoon workshops, networking opportunities, light daily continental breakfast and refreshments. Payment is due with your registration form and may be made by check, Visa, MasterCard or American Express.

If your organization requires a purchase order, we will bill you and hold your registration form until November 18, to allow for receipt of payment. All tuition and registration payments must be received in full before obtaining a confirmation packet prior to the event.

REFUND/CANCELLATION POLICY
Notice of cancellation must be received by November 18 to receive a full tuition refund. If cancellation notice is received after November 18 and up to 5 days before the start of the event, NeighborWorks America will assess a $150 cancellation fee and provide a tuition credit voucher for the balance. The credit voucher expires if not used within one year of issuance. If a cancellation notice is received less than five business days prior to the event, or if you do not complete your coursework, no refund or credit voucher will be issued. NeighborWorks America reserves the right to cancel any course at any time. If your course is canceled, you may choose another course or request a tuition refund. Other than refunding your tuition in the event that the course you chose is cancelled, NeighborWorks America is not liable to you for any other damages, including, without limitation, any obligation to provide a refund for any travel and/or lodging costs associated with attending any NeighborWorks event or other direct, indirect or consequential damages.

SUBSTITUTION POLICY
Substitution requests will be accepted up to November 18 and requests are subject to course availability.

SCHOLARSHIPS
Limited scholarship assistance may be available to nonprofit organization staff, board members and volunteers. For more information, visit NeighborWorks.org/scholarships. If you are awarded a scholarship and do not cancel or are a no-show to the event, your scholarship eligibility may be revoked for 12 months.

Courses start promptly and conclude on time, except for Friday, when courses end at 2:30 p.m. Certificates of completion are awarded only to participants who attend and complete 100% of the course.

PHOTO, AUDIO AND VIDEO RECORDING RELEASES
By entering the event premises, you consent to interview(s), photography, audio recording, video recording and its/their release, publication, exhibition, or reproduction to be used for news, webcasts, promotional purposes, telecasts, advertising, inclusion on websites, or any other purpose by NeighborWorks America and its affiliates and representatives. You waive all rights you may have to any claims for payment or royalties in connection with any exhibition, streaming, web casting, televising, or other publication of these materials, regardless of the purpose or sponsoring of such exhibiting, broadcasting, web casting, or other publication irrespective of whether a fee for admission or sponsorship is charged. You also waive any right to inspect or approve any photo, video, or audio recording taken by NeighborWorks America or the person or entity designated to do so by NeighborWorks America. You release NeighborWorks America, its officers and employees, and each and all persons involved from any liability connected with the taking, recording, digitizing, or publication of interviews, photographs, computer images, video and/or sound recordings.

SPECIAL NEEDS
If you have special needs addressed by the Americans with Disabilities Act, notify us at least one month prior to the event.

☐ On occasion, NeighborWorks® Training Institute shares your name and address with other organizations that are involved in nonprofit management and community development so that they may send you information about other products and services that may be of interest to you. If you are not interested in having us share your name, address, telephone number, fax number, and e-mail address with such organizations, please check the circle to the left of this disclosure statement. Rest assured that NeighborWorks® Training Institute honors your privacy and respects your wishes.
REGISTRATION AND ACCOMMODATION INFORMATION FOR NEIGHBORWORKS ORGANIZATIONS, PORTLAND, OR

REGISTRATION
The NeighborWorks network slot registration deadline is October 14. Indicate your first and second choices for courses each day on the registration form using the course letters and numbers. To verify that your organization is a NeighborWorks network organization, please check the members-only website at www.NeighborWorks.org.

ONLINE REGISTRATION
Network participants are encouraged to register via our online registration system, which allows you to enter lodging request, access your transcript history, update profile information and make course changes. If you are using a training slot, you will need the slot code in order to submit your travel and lodging needs. You may access the online registration tool at NeighborWorks.org/onlinereg. First-time users to this online tool will need to create a User Profile before registering for the event.

TRAINING INSTITUTE SLOTS
Each NeighborWorks network organization receives an annual (fiscal year: Oct. 1– Sept. 30) number of training institute slots. Each slot covers a discounted single occupancy lodging rate per night.

TUITION RATE
NeighborWorks network members register for the training institute at a special flat rate of $525. Tuition includes courses and materials, afternoon workshops, and a light breakfast snack.

TRAVEL
NeighborWorks organizations are given travel funding to complement their slots. Your organization is responsible for booking and paying for your own travel to the training institute using your own travel agency or online booking tool. If you are participating in a NeighborWorks meeting or receiving a scholarship in which travel is covered, you will receive special instructions on how to arrange your travel. In the registration process, be sure to specify the dates that you need a hotel room—which must match the dates for your courses/meetings.

ACCOMMODATIONS
All NeighborWorks America events only book single-occupancy hotel rooms. As a network participant attending an event, you pay only $105 per night times the number of days you participate in the training institute. The full payment: $525 tuition plus the lodging per night cost is due at the time of registration by the slot registration deadline.

All slot registrations include a discounted single occupancy room. If your registration is confirmed, please do not make a separate hotel reservation as NeighborWorks America already has you on the Master Block.

PAYMENT
Tuition and accommodation payment(s) must accompany your registration form. Illegible, incomplete forms or no payment attached will delay the registration process. Send completed registration form(s) and payment to: Neighborhood Reinvestment Training PO Box 418630, Boston, MA 02241-8630. When using a credit card, please fax it to (800) 834-3758.

PAYING YOUR OWN EXPENSES (POE)
If your organization has exhausted institute slots and still wishes to have staff attend, you may pay the $525 tuition rate, as well as arrange and pay for your own staff travel and lodging. Complete the registration form and check the “Pay Own Expenses” box. Submit the form with your tuition payment before November 18.

SPECIAL NEEDS
If you have special needs addressed by the Americans with Disabilities Act (ADA), notify us at least one month before the Institute. If your special needs require you to be lodged at a hotel close to your courses, NeighborWorks America needs to be notified by the October 14, 2019 slot registration deadline.

CANCELLATION AND REFUND POLICY
Your written cancellation notice must be received by November 18 to receive a tuition refund. If your cancellation notice is received less than three weeks before the start of the event, NeighborWorks will assess a $150 cancellation fee and provide a tuition credit voucher for the remaining balance. The credit voucher expires if not used within one year of issuance. If cancellation notice is received less than five business days prior to the event, or if you do not complete your coursework, no refund or credit voucher will be issued and you forfeit the slot. If hotel reservations were confirmed on your behalf and you did not cancel and did not show up at the event, the hotel will assess a no-show charge to NeighborWorks America. The hotel no-show charge will then be billed to your organization. NeighborWorks reserves the right to cancel any course at any time. If your course is canceled, you may choose another course or request a tuition refund and reinstatement of the institute slot. Other than refunding your tuition and reinstatement of the slot in the event that the course you selected is cancelled, NeighborWorks America is not liable to you for any other damages, including, without limitation, any obligation to provide refund for any travel or lodging costs associated with attending any NeighborWorks Training event or other direct, indirect, or consequential damages.

SUBSTITUTION POLICY
Substitution requests will be accepted up to November 8 and requests are subject to course and lodging availability.

ATTENDANCE AND CERTIFICATE POLICY
Courses start promptly and conclude on time, except for Friday, when courses end at 2:30 p.m. Certificates of completion are awarded only to participants who complete 100% of the course.

PHOTO, AUDIO AND VIDEO RECORDING RELEASES
By entering the event premises, you consent to interview(s), photography, audio recording, video recording and its/their release, publication, exhibition, or reproduction to be used for news, web casts, promotional purposes, telecasts, advertising, inclusion on websites, or any other purpose by NeighborWorks America and its affiliates and representatives. You waive all rights you may have to any claims for payment or royalties in connection with any exhibition, streaming, web casting, televising, or other publication of these materials, regardless of the purpose or sponsoring of such exhibiting, broadcasting, web casting, or other publication irrespective of whether a fee for admission or sponsorship is charged. You also waive any right to inspect or approve any photo, video, or audio recording taken by NeighborWorks America or the person or entity designated to do so by NeighborWorks America. You release NeighborWorks America, its officers and employees, and each and all persons involved from any liability connected with the taking, recording, digitizing, or publication of interviews, photographs, computer images, video and/or sound recordings.
